

Limited Medical Radiologic Technician

A dedicated, award winning medical professional and an unusually well qualified LMRT candidate due to my eight years experience as a U.S. Army Combat Medic and two additional years as an Emergency Medical Technician more recently. I further benefited from an extensive 600 hour X-ray Machine Operation internship over a five month period while I earned my LMRT License. With my excellent people skills and extensive practical experience, I will excel as a Limited Medical Radiologist Technician.

Professional LMRT Experience and Credentials

LMRT Intern, Cowboy Chiropractic Clinic, Irving, TX 8/08 – 12/08
A five month internship where I learned hands on, the correct operation of X-ray equipment, developing film, optimal positioning of patients and equipment, image taking, safety procedures for staff and patients.

Texas Temporary Limited Medical Radiologic Technologist License # 202169 2009
Modifiers: Chest, spine, skull and extremities

LMRT Certificate from the Academy of Health Care Services, Dallas, Texas 2009
